

“Erlebnis Modellbahn“ in Dresden 2026

First stop: Dresden!

We are delighted to be back at the “Erlebnis Modellbahn” model railway exhibition in Dresden to kick off the new year.

A unique feature of “Erlebnis Modellbahn” is that the fair is organized entirely by the “Theodor Kunz” model railway club. Last year, they celebrated their 60th anniversary, and this year, the fun is set to carry on. The club is proud to be hosting this well-known and very popular event for the 20th time.

More than 120 exhibitors will be joining the club’s celebrations from February 6 to 8. And of course, Herpa will be there too! In Hall 4 at Stand B4, we look forward to hearing your reactions, getting your feedback, and discussing anything on the subject of miniature models.

Our exclusive trade fair model, a high roof Mercedes-Benz Sprinter, will be tempting visitors this year, alongside three different electric locomotives. The 372 series “drives” on the right-hand side, while the Rh372 series is perfectly showcased on the left-hand side. Moreover, the Sprinter is an eye-catcher on the rear of the 371 series.

Incidentally, our product manager Stefan Blank will be on site on Friday and Saturday. He is just as excited as we are to welcome every single visitor.
