

Hanover on the pulse of emergency services

Interschutz 2026 opens its doors

As the sector's leading international trade fair, Interschutz in Hanover brings together experts from the fire service, rescue services, civil protection, and industry.

For us, this trade fair is not just an opportunity to exchange ideas, but also to reconnect with people passionate about protecting lives. In keeping with the theme of the trade fair, we are bringing the 'little brothers' of the original vehicles to Hanover. We are offering five attractive blue light models.

Two models are based on Volkswagen Crafters from the Hanover Fire Service. We are implementing the electric drive GW-FK (fire service equipment vehicle) in line with the original. There are several Volkswagen Crafter flat-roof buses in use in Hanover as MTWs (crew transport vehicles).

The Hanover-Langenhagen THW (Federal Agency for Technical Relief) also provides two models, in the shape of the Mercedes-Benz Sprinter 18 as an MTW (crew transport vehicle) and the MLW IV (crew truck 4) on a MAN chassis.

As a further highlight, which will include a donation to ASB (Samaritan aid agency) Lower Saxony, we are recreating their ideal car in miniature.

So, what are you waiting for? See you from 1 to 6 June 2026 in Hanover in Hall 12 at Stand A40. We look forward to meeting everyone who drops by.
